

Exploring Educational Paths

Educational Institution Brochure and Oral Presentation

This is a cooperative assignment because you will be researching an institution for the benefit of the whole class. Each student will research one post-secondary institution and develop a brochure that will be presented orally to the rest of the class and passed around for all to see. This will make you aware of the many options available to you.

Your assignment: Research your assigned institution and provide all important information for someone considering studying there:

- Location, contact information (web site, too)
- Admission requirements and deadlines
- Tuition fees
- All programs
- McLean's annual rating if possible
- Special programs, features, attractions, etc.

You must present all information in a professional manner on both sides of a tri-fold 8.5x11 piece of paper. You may want to cut and paste then photocopy to present a smoother look. It is evident that most information will be selected and copied but WHERE POSSIBLE you are expected to write in your own words!

When you present your institution, you are expected to be an official representative of that school - dress appropriately, speak clearly and "sell" your school! You will be limited to five minutes.
